Message from the Director

Debbie Ridgely - OSDU Director

Happy New Year! The FY 08 Procurement Forecast is posted on our website, so please review the opportunities to match your skills with our needs. In FY 08 the HHS Small Business office will focus on training. Internally we will continue to train our acquisition and program office personnel. Externally we will maintain our support for conferences on a national, regional and local level. Emphasis remains on the Service-Disabled Veteran, HUBZone and 8(a) programs. Our VH8 event hosted November 7, 2007, was an overwhelming success. We brought Service-Disabled Veteran-Owned, Veteran Owned, HUBZone and 8(a) businesses to this one-day event to meet with the Contracting and Program Office officials and the Small Business Specialists from every Operating Division.

In this issue we are featuring Maricom Systems, a very successful Women-Owned, 8(a) Small Business that has worked for the Centers for Medicare and Medicaid Services (CMS) since 1998. This is an inspirational story that provides hope to all Small Businesses. Coincidentally, on March 26, 2008, the U.S. Women's Chamber of Commerce is spotlighting HHS as their feature agency. Registration information is shown on page 3.

[Director's message in Spanish](#)

CMS Provides Hot-House Environment for New Company

When Maria Jackson was first asked to provide 10 days of DB2 (database programming) consulting and training at the Centers for Medicare and Medicaid Services, she had no idea she was entering a partnership that would be as rewarding or long-lasting. The completion of her two week assignment ultimately led to a three-year contract with CMS to administer DB2 and Oracle databases. That was 1998. Since that time Maricom Systems, the company Jackson founded, has grown into one of CMS's top small business contractors. This growth catapulted Maricom into the top 25 8(a) companies nationwide in 2006.

Today, Maricom offers a wide range of Information Management, Application Development, and Systems Support services. A CMMI Maturity Level 2 certified company (and presently progressing to Level 3), CMS has looked to Maricom to develop complex mission critical

applications such as the National Provider Identifier (NPI) Crosswalk, a system that enables CMS to manage their numerous legacy identifiers by "crosswalking" them to the new ID. Maricom has also applied their HIPAA expertise to developing applications such as ASET, CMS' web-based tool for enforcing HIPAA compliance.

Providing business intelligence (BI) and middleware solutions is another area where Maricom has excelled. Their BI specialists optimized data extraction activities at CMS using tools such as Microstrategy, Informatica, and Cognos. When CMS needed a messaging infrastructure that could standardize data replication across their three-zone architecture, they looked to Maricom to provide innovative leadership in implementing the IBM WebSphere MQ series toolset.

Key to Maricom's success has been the close work provided by the HHS' OSDU. "With all the growth we've experienced at CMS, we're now ready and able to expand into other agencies," said Jackson. To learn more, visit www.maricom.com

First VH8 Industry Day a Huge Success

Numerous vendors from around the country attended VH8 Industry Day, November 7, 2007 in Washington, D.C.

"We are very proud of our commitment to the Small Business Program. In Fiscal Year 2008, HHS is focusing on increasing our awards to Veterans and Service-Disabled Veterans, HUBZone and 8(a) companies," said Deputy Secretary, Tevi D. Troy.

Eleven different HHS Operating Divisions and five prime contractors including: Bearingpoint, Gilbane Building Co., Science Applications International Corporation (SAIC), STG International and Westat met with vendors at the outreach event.

Indian Health Services

L-R Nelia Holder, Small Business
Specialist, James Garvie, Linda Longbrake

The HHS' Office of Small and Disadvantaged Business Utilization (OSDBU) office arranged 10 minute meetings with several HHS Operating Divisions and Prime contractors for individual vendors before the event.

This outreach event was a great opportunity for experienced contractors as well as first time vendors like redGizmo, an 8(a) firm headquartered in San Antonio, TX. According to Erica Borchers, marketing manager at the Creative Communications firm.

"We are an 8(a) firm, but we've never had an 8(a) contract. The VH8 was our first government event to attend," said Borchers, who found out about the event from reading the *HHS Pulse*.

"I did research on HHS' operating divisions that could be interested in the services we provide and tailored my presentations to the agencies I was scheduled to meet with, said Borchers. Our original meetings were very fruitful. Another benefit was that small business specialists set up open signs if there were no show appointments, so that you could jump into an open space and make a quick presentation," added Borchers.

"I went in with three scheduled appointments and I came out with eight! I was also was able to meet with SAIC, which is one of the top prime contractors for HHS," she said. "I would have had to travel to Washington two or three times to meet with the people I met with in one day through this event. "

"HHS is committed to increasing participation of Service-Disabled Veteran-Owned Small Businesses, HubZone Small Businesses and 8(a) Small Businesses. This first conference was so successful we intend to make it an annual event," said Debbie Ridgely, the Director of OSDBU.

In FY 2007, HHS Exceeded its Dollar Goal for Women-Owned Businesses of \$601,122 Million, by \$55.5 Million!

You can hear more about this by attending the U.S. Women's Chamber of Commerce™ (WCC) Woman-Owned Small Business Industry Day on March 26, 2008. WCC will spotlight the U.S. Department of Health and Human Services' mission and its acquisition procedures.

The HHS Office of Small and Disadvantaged Business Utilization (OSDBU) Director, Debbie Ridgely will discuss HHS' FY 2007 accomplishments and FY 2008 goals during the morning session. Currently, there are over 650 women-owned small businesses with active contracts in HHS.

The WCC Staff will facilitate invitational only, one-on-one counseling sessions during the afternoon.

For more information, log onto the U.S. Women's Chamber of Commerce homepage (<http://www.uswcc.org/>) or the HHS OSDBU homepage (<http://www.hhs.gov/osdbu/>) to review upcoming events information.

"We value the contribution of Women-Owned Small Businesses to HHS," said OSDBU Director Debbie Ridgely.

HHS OSDBU Team Travels to San Antonio, TX for Outreach Conference

L-R Clarence Randall - Senior Advisor,
Anita Allen - Small Business Specialist
Supporting the Program Support Center
(PSC) and Teneshia Alston -
Senior Small Business Specialist

The HHS OSDBU Team greeted hundreds of small, disadvantaged, veteran-owned, 8(a) and new business owners eager to learn how to do business with HHS.

The OSDBU office has been attending the City of San Antonio & Bexar County 7th Annual Small Minority & Women Business Owners Conference for several years and finds it a productive outreach method.
